

# Minutes of Meeting

Meeting Title: Cybersecurity Solutions for Small Businesses

## Agenda

1. Discussion on current cybersecurity concerns and existing setup

## Summary

- **Meeting Objective**: The objective of the meeting was to introduce CyberSentinel's cybersecurity solutions to Raj and discuss how it can help his small business stay ahead of cyber threats.

- **Key Discussion Points**:

- Raj's business currently has basic cybersecurity measures in place but lacks real-time monitoring and a centralized system.
- Sara introduced CyberSentinel's platform, which offers proactive cybersecurity, real-time monitoring, AI-based threat detection, and automated incident response.
- Sara explained the three key features of CyberSentinel: proactive threat detection, automated response, and compliance reporting.
- Sara shared a success story of a healthcare client who detected a ransomware attack within 90 seconds using CyberSentinel.
- Sara assured Raj that CyberSentinel can easily integrate with existing systems without disrupting the workflow.
- Sara presented the impact of CyberSentinel on reducing breach response times and false positives.
- Sara discussed the flexible pricing plans of CyberSentinel, assuring Raj that there's a plan that fits his business needs.

4.

## Action Items

1. Sara to schedule a demo for Raj to see CyberSentinel in action and discuss any specific needs his team might have.
